(54) Title: COMPOSITION CONTAINING CREATINE AND PHOSPHORUS

(57) Abstract: The invention discloses a composition comprising (a) soluble creatine, (b) a phosphorus supplement, wherein the phosphorus supplement provides at least 75 % of the recommended daily dose of phosphorus value per serving, and (c) a blood buffer, which is preferably citrate and/or (bi)carbonate. The composition is used in a method for increasing the energy capacity within tissue cells.

## \* Special categories of cited documents :

\*A\* document defining the general state of the art which is not considered to be of particular relevance

\*E\* earlier document but published on or after the international filing date

\*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

\*O\* document referring to an oral disclosure, use, exhibition or other means

\*P\* document published prior to the international filing date but later than the priority date claimed

\*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

\*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

\*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

\*Z\* document member of the same patent family
